TECHNOLOGY CENTER R3700

- sub 1
- B1
1. A respirator that comprises:
 - (a) a face piece that is sized to fit at least over the nose and mouth of a person;
 - (b) a cartridge receiving structure that is located on the face piece; and
 - (c) a filter cartridge that has a housing into which a filter element is contained, the filter cartridge capable of being manually snapped into engagement with the cartridge receiving structure to produce an audible noise, the engagement being instantaneously obtainable by pressing the filter cartridge against the receiving structure without rotational movement of the
